Education

B.E. – Computer Science & Engineering

VSM's S.R. Kothiwale Institute of Technology, Nipani
CGPA: 8.24 | 2021–2025

XII (PUC)

VSM G.I. Bagewadi PU College, Nipani
Per : 74.33 | 2021

X (SSLC)

Gomtesh English Medium School, Nipani
Per : 75.84 | 2019

Internships

Java Full Stack Development | Seven Mentor Pune

📅 02/2025 - 04/2025

Project: Image Gallery & Product Management

- Built a full-stack web app using React (frontend) and Spring Boot, Hibernate, MySQL (backend)
- Implemented image upload, display, delete, filter, and data validations
- Applied MVC architecture and RESTful APIs for scalable, maintainable code

AI & Data Science | Invenetron Technology Bangalore

📅 10/2023 - 11/2023

Project: Face Mask Detection System

- Trained machine learning models with Python, TensorFlow, Keras for computer vision
- Handled dataset collection, labeling, and preprocessing to improve accuracy
- Applied deep learning to address real-world public safety use cases

Web Development | SV Mind Logic – Nipani

📅 10/2023 - 11/2023

Project: College Website & Restaurant Website

- Designed and developed two responsive websites with HTML, CSS, JavaScript, Bootstrap
- Ensured mobile responsiveness and cross-browser compatibility through testing

Certifications

Java Programming – [SoloLearn](#)

SQL Programming – [GeeksforGeeks](#)

Skills

Technical Skills

- Java, Spring Boot, Hibernate
- React, JavaScript, HTML & CSS
- MySQL, SQL Server
- Git & GitHub
- OOP Concepts
- REST APIs

Soft Skills

- Problem Solving
- Teamwork
- Adaptability
- Communication Skills
- Time Management

Projects

Ecommerce App

Tools: React, Spring Boot, MySQL, REST API

- Developed a full-stack eCommerce platform promoting sustainable products.
- Implemented user authentication, product listing, search, and seller-specific views.
- Built secure backend with Spring Boot and MySQL, integrated with React frontend.

Image Gallery App

Tools: React, Spring Boot, MySQL

- Built an image upload and management platform with user-friendly gallery UI.
- Features include image upload, delete, search, category filter, bulk delete, and date sorting.
- Used Spring Boot for API development and React for dynamic grid layout.

Practice project
